Golf Activities Committee

We are pleased to report that we have created a Golf Activities Committee to give our members the ability to assist in making decisions concerning our golf program. This committee will assist with addressing all member input on golf topics. Members can voice inquiries or concerns by emailing a committee member and each topic will be discussed and voted on at a monthly meeting.

This Committee will create and make decisions on all the Club's golf activities. It will oversee the arrangement of all tournaments, competitions, and matches, as well as make recommendations to the Board concerning the use of the golf course. The Committee will also be responsible for the proposal and submission to the Board of golf policies and rules. Working with the golf professional, the Committee will develop a comprehensive program of golfing opportunities for members. The committee members will be nominated annually in September and elected in October. The newly elected committee members will start on the 1st of November. One member will remain on the committee for the following year and one member will be a representative from the Board of Directors.
