Kid's Halloween Brunch
Sunday, October 30th

Shepherd Newcomb

Welcome to our new Assistant Tennis Professional, Shepherd Newcomb. Shepherd is a USPTA Elite Professional and an NCAA Alum. His resume includes three NCAA DII National Tournament appearances in three years, individual national ranking and 3X Pacwest Player of the Week. He grew up as part of a family of seven, four of whom are now professional tennis coaches. Shepherd gained his USPTA certification at the age of eighteen after a competitive junior career and ranked in the top ten of the Northern California boys division. He then headed to Los Angeles and played for Azusa Pacific University. He is excited to be part of the Hunting Hill's family.

James Kasza Director of Development

Join us in welcoming our new Director of Golf Development, James Kasza. James has studied with Steve Prater for the past four years learning the ins and outs of the golf swing and course management and TPI (Titleist Performance Institute). The Titleist Performance Institute uses a holistic approach and innovative technologies to help golfers improve their performance. We are excited to offer this new program to all the golfers here at Hunting Hills Country Club. As a TPI trainer James can help address your areas of weakness, address your pain, and reduce the risk of injury so that you are able to truly enjoy your game.

For the past few years, James has worked with the junior golfers at Blacksburg Country Club to improve their mobility, swing speed, strength, and overall conditioning with the support of Steve Prater and the BCC Management. For the last 4 years he has run junior clinics and given lessons 3-5 times a week consisting of 20-30 juniors. During this time, he taught the fundamentals of the golf swing and course management as well as golf etiquette. He has worked with all skill levels to get the most out of their golf games; this included 7 juniors ranked in the top ten for VSGA in their age divisions and 5 ranked top 100 in the Nation for their age divisions. James loves teaching all facets of the game and believes there are so many benefits for on the course lessons as well. He is also an experienced golf instructor working with juniors and adults with special needs and has worked with the PGA adaptive golf program.

Cell: 540-397-4070 | Email: Jkasza@HuntingHillsgcc.com

"TPI does not believe in one way to swing a club, rather in an infinite number of swing styles. But we do believe there is one efficient way for every player to swing and it is based on what the player can physically do."

American Heart Association Tennis Tournament

The annual American Heart Association doubles tournament is October 21st-23rd. This tournament has been held for over 45 years now and Hunting Hills has run it for over 40 of those years and has raised over \$100,000 for the American Heart Association.

To sign up or receive more information please call or text John Barker at 540-580-7780.

Hunting Hills Community Real Estate, LLC

The mission of Hunting Hills Community Real Estate, LLC. is to secure and protect the real estate within Hunting Hills community. It is to keep our green spaces open and our residential property values up.

The golf course and country club add value to every property in the neighborhood. If they disappear, then so does the green space. All property values will drop immediately. The neighborhood will become a construction zone for years, and traffic will multiply exponentially for everyone who lives here.

When you purchase a share in the HHCRE, LLC you are purchasing real estate. Your share and others' control real estate likely worth in excess of \$5,000,000.00. You insure your current home value. You gain a voting voice in the future as how the land is used. You will not be one of tens of thousands of shareholders in a large public company but one of a few shareholders, along with fellow neighbors in a piece of very valuable real estate in your own backyard.

Please help by reaching out to hcrellc@gmail.com or Michael Turner mmturner1127@gmail.com for more information.

"I've told all my clients and anyone else who lives here that they need to purchase a share. It's a no brainer...there is not a single homeowner who shouldn't."

- JEANNINE HANSON, REISIDENT REALTOR

"Thank you" to George Clements of George's Flowers for the weekly flower arrangement for the Hunting Hill's Reception area.

WGA Golf Tournament

On Thursday, September 8, the WGA hosted a valley invitational golf tournament. We were proud to show off our beautiful course to 29 players from many clubs. We provided lunch for the group and Jordan handed out awards for group winners. Everyone enjoyed a great day at our club.

- Janet Scott

Halloween Jokes for Kids

1. What do skeletons say before dining?
Bone Appetit!
2. What did the vampire say to the invisible man? Long time no see!
3. Why is dracula so unpopular?
Because he's a pain in the neck!
4. Why don't skeletons like parties?
They have no body to dance with.
5. What did the ghost teacher say to her class? Watch the board and I'll go through it again.
6. Why was the little ghost crying?
Because he wanted his Mummy.

Tips & Tricks

Does your child's behavior seem to change once they get home from school? I'm sure you wonder if they've acted that way all day or listened to their teachers. They're bouncing off the walls, climbing furniture, or maybe just tired and disagreeable. Turns out it's not unusual at all! It's probably because they've been cooped up and on their best behavior all day. Once they are home, they are in their safe zone. They need time to unwind. Give them space and time to let loose and just be a kid! Maybe they need to wind down with their favorite TV show and a snack; or maybe they need to have a dance party! A period of less structured time before having to do any chores or homework can be very important!

This Month's Tongue Twister

Tongue Twisters can be difficult, but such a great and fun way to improve a child's memory and literacy skills. Children who practice tongue twisters can improve their English, better their knowledge of rhyming words and you will find that they learn to appreciate sounds. Tongue twisters can also help a child recognize what words and sounds are difficult for them to pronounce. When a child knows a certain word is hard to say they can then focus individually on a certain word to master it. Once they master a hard word they can then be more successful at tongue twisters because it will not slow them down. Another benefit you will notice of Tongue twisters is increasing your child's vocabulary. Use these tongue twisters to talk about words they may not know the meaning to just yet.

**If two witches were
watching two watches:
which witch would
watch which watch?**

Scarecrow Snack Mix

- 1/2 cup Candy pumpkins
- 2 cups Chex cereal
- 6 cups Caramel corn
(with or without nuts)
